

The PHAEDRA project: Possible tasks for the second year

David Wright
Managing Partner
Trilateral Research & Consulting
Warsaw, 24 Sept 2013

An online repository

- Online repository (members' pages on GPEN)
- List of DPA contacts
- Instruments for enforcing privacy
- Case law
- Initiatives aimed at raising awareness (good practice)
- Case studies re data controllers not established in the DPA's jurisdiction where the processing takes place
- A platform where PEAs can signal their interest in a particular enforcement issue
- A repository of DPA data protection legislation & confidentiality requirements

Other possible topics

- Legal reasoning re how DPAs establish jurisdiction in matters relating to global data flows. What criteria do countries apply?
- Development of a [binding, non-binding] framework for information exchange, joint inspections and co-ordinated enforcement actions.
- A training programme for joint workshops, study visits, training, professional practices
- A view of the forensic tools used by different DPAs in order to have a common technical approach
- How do others in the security and consumer protection domains co-ordinate enforcement actions?
